Vicky, I can certainly do this. Just clarifying... Slide 3 is the one slide that isn't a map (has the ranking of wells by county, municipality). Which map did you want to use?

Subject: Help with map (Powerpoint)?

For the Administrator's briefing on Friday, we'd like to use one of the maps you made: Slide 3 of the powerpoint package you put together late yesterday.

Could you add a scale? and the key to all the symbols? and maybe a small inset to show where Dimock/Susquehanna County is in PA? (don't want it too busy, I know.

Also, could you make the same map without the landscape background, with just streets and wells? For those who are map-challenged.....

Oh, and of course, we need this ASAP, early afternoon, if possible.

Did I say "Thanks"?--Vicky
